

# MEET OUR DOCTORS

## HELEN CHEN, M.D.

Medical Director  
Radiation Oncologist,  
Department of Radiation Oncology  
[CityofHope.org/helen-chen](http://CityofHope.org/helen-chen)

### **SPECIALTY**

Radiation Oncology

### **LANGUAGES SPOKEN**

English, Mandarin, Spanish

Helen Chen, M.D., is a board certified radiation oncologist at City of Hope | South Pasadena in the Department of Radiation Oncology. She has seen over 6,000 patients during her 22-year practice. She performs noninvasive radiosurgery and stereotactic body radiation therapy for brain and lung tumors, as well as RapidArc technology. These innovative methods allow for more precise treatments to be completed, with better patient comfort, in a fraction of the time.

Dr. Chen's patient-centered approach includes enrolling her patients in clinical trials for breast, prostate, head and neck cancers and brain metastases. These treatments can mean better survival and quality-of-life outcomes. She is particularly proud of her highly skilled and collaborative team who work together to deliver coordinated, compassionate and personalized care for her patients.
